

13mm bariyerli

The image shows three rectangular panels stacked on top of each other. Each panel has a white base with a dense pattern of small, multi-colored specks (black, red, yellow, blue, green). A thin, solid black border runs along the edges of each panel. The panels are set against a plain white background.

23mm bariyerli

A large stack of interlocking concrete slabs, likely for a roof or floor. The slabs are arranged in a way that they fit together, with a dark, textured surface on top and a lighter, speckled surface on the bottom. The stack is thick and extends into the distance, creating a strong sense of depth and repetition. The lighting is bright, highlighting the texture and color of the concrete.
